2) iWARP
   a) Tom Reu is working to improve support for newer products in 3.12
3) RoCE

   b) **Pradeep**: NFSoRDMA – bug 2449Tom Tucker created a patch but this is still not completely resolved. They have seen a crash on i386 on certain conditions but not readily reproducible. They are focused on solving the PPC64 issues first.
   c) Bug 2449 is still an issue and it looks like it will not get resolved in time for OFED 3.5-2 GA so this will mean that NFSoRDMA will only be a Beta test for Jan 2014 OFA Logo event
